GUIDELINES

All stallions must complete the assessment

There is no time limit for completion.

This booklet should be passed with the horse if sold, it gives the buyer a clear indication how talented and important the animal is within the TGCA stud book system.

As each section is completed, your booklet can be sent back to Head Office for stamping and updating for your star award.

At this time also send in any further information that you feel will help the Evaluations Committee with their decision ie extra show results , further pictures etc, this should be presented within a booklet type presentation clearly labelled with the horses and owners contact details.

Please send back your previous star to allow us to award you with your new up graded Bridle Star award.

Your Bridle Disc should be displayed at all times on the bridle when competing within TGCA events.

Existing stallion Bridle Discs should also be displayed on the offside of the bridle at all times.
